Map of Conservation Practices in Fillmore County (as reported in eLINK for the MN Board of Water and Soil Resources)

Outputs and Outcomes

Outputs:

2014: Two contracts encumbering \$1,911.72 (cost share and TA) for grassed waterways were approved in 2014. No projects were completed in 2014 using FY15 grant funds.

2015: Seven grassed waterways (12,530' total) and 1 well decommissioning completed; 1 terrace completed that also used FY2014 funds.

Outcomes:

Water pollution reduction estimates for projects completed:
Estimated Soil Savings = 54.44 T/year

Waterway needs are often evident after a rain event. A waterway's purpose is to:

- convey runoff from terraces, diversions or other water concentrations without causing erosion or flooding.
- reduce gully erosion.
- improve water quality.
