

Forestry Field Day: Wednesday, July 25TH

Why Trees? Why Prairie? Why Goats?

***Magelssen Bluff
Park in Rushford***

5:30 PM Light Supper

6:00 PM Tour

Directions

If coming from downtown Rushford (4-way stop at Hwy 43/Hwy 30 intersection, aka South Mill Street), go 0.7 miles west on Hwy 30, turn right onto Magelssen Bluff Rd. (where the speed limit changes-watch for park sign) and proceed to the top.

If coming from the west on Hwy 30, proceed 0.6 miles past the Rushford Lutheran Cemetery, turn left onto Magelssen Bluff Rd. (watch for park sign) and proceed to the top.

Magelssen Bluff Park Lookout Area

5:30 PM to Sunset

Join us to learn how terrain, soils, and aspect affect timber productivity, the types of plant communities found on a site, and identifying trees and plants that will thrive depending on site conditions. Also, learn about prairie restoration methods like goat grazing and rattle snake habitat improvements from local experts Jim Edgar, Jake Froyum (DNR Foresters), Mitch Gilbert, Johnny Micheel (Private Foresters).

Parking will be along the cement stones in the grass along the park road at the top of the bluff.

Please wear appropriate closed-toe shoes for hiking. Seating is limited so bring a lawn chair if you can.

Sponsored By: Fillmore SWCD, High Point Realty, American Tree Farm Association, Minnesota Forestry Association
